NILES YOUTH NOW IN COAST GUARD WAR DOG TRAINING

"Youth of Alameda County continue to make good in the Coast Guard following their initial training locally," the Recruiting Office in the San Francisco Custom House announced today, issuing the report of MANUEL J. "Pharmacist's mate, machinist's and motor machinist's mate, chemical warfare cooks and bakers, radioman, seamanship branches, water tender, electrician's mate and specialist's branches are only a few that the entering Coast Guardsman may qualify for after basic training it was announced. Information may be had at the Coast Guard Recruiting Station 118 Custom Huose, San Francisco.

To the People of this Community:

DRIVE DEPENDS ON YOU!

Would you take a free ride on a wounded soldier's back? That's exactly what you would be doing if you did not do your duty in the Third War Loan.

3rd WAR LOAN Buy More Bonds

Your idle weight would be felt by him on the battlefield. Every civilian counts in this kind of war. Every civilian must make his energy and his dollars work for victory.

Keep in mind that while our national goal in this drive is 15 billions of dollars, this money is being borrowed from **you** and **you** and **you**. **You** are, as an individual, the deciding factor as to whether we reach this goal. An extra $100 War Bond becomes an extra rifle, extra bullets and extra fighting power of every type.

● Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA $100 War Bond in September. That's *in addition* to your regular War Bond purchases. Invest *more* than $100—a *lot* more—if you possibly can.

The job is big. *Everyone* must do his *full share* if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

Great Third War Bond Drive Gets Uuder Way Today; Quota Is One Hundred Dollars Each!

"Back the attack—with War Bonds."

That's the slogan of the Third War Loan Drive now under way.

It's the slogan under which every man and woman, boy and girl in this city and this county is being asked to do his share toward meeting the steadily mounting costs of war.

Not only should every citizen of this community invest his available cash in war securities as a patriotic service to Uncle Sam, but he should be motivated by two other vital considerations:

First: "Loose" dollars will lead to inflation if they are not invested in war securities.

Second: Money invested in war securities now will provide a comfortable nest-egg in the years to come. Remember, Uncle Sam is not asking you to GIVE your money. He is asking you to LEND it—at interest. So support the Third War Loan. Support it as a loyal American—with every available dollar.

Our boys on the battlefront are giving their lives that we may live in freedom. We, at home, are only being asked to invest our money—at interest.

L. R. Burdick, manager of the James Graham Manufacturing Company at Newark has been appointed chairman of the Washington Township drive by Secretary of the Treasury Morgenthau, and he has appointed the following town vice chairmen who have appointed their own committees to assist them:

Joseph Pashote, Newark; Jack Blacow, Alvarado, Loren Marriott, Centerville; George Smith, Decoto Robert Blacow, Niles; Carl Christensen, Irvington; Mrs. Lois Justus, Mission San Jose. Louis Amaral, Newark Rural and Mrs. Joseph Brown, Warm Springs.

At Niles Chairman Blacow has appointed the following committee to assist in the house to house canvass throughout the Niles School district: Mrs. L. A. Mayer, Mrs. Gladys Williamson, E. A. Ellsworth, Reverend D. Q. Grabill, Ed Enos, Clement Donovan and Mrs. Sophia Quartaroli.

This group met Wednesday afternoon in the Central Bank at Niles to perfect their plans. The drive starts today and will continue until the quota of ONE HUNDRED DOLLARS PER PERSON has been reached as nearly as it is humanly possible to reach it.

This means that the Niles School District, with a sugar ration book registration of something over 2,500 persons has a quota of a quarter of a million dollars to reach.

Reviving the slogan used in the Liberty Bond drives of the last war: "Give until it hurts—then give some more!"

TOWN CHAIRMEN ORGANIZE THEIR CAMPAIGN PLANS

Chairman of Newark War Finance Committee, Joseph Pashote, with Chairman Louis Amaral of Alviso District and Chairman Joseph Brown of Warm Springs and their supervisors met at the Firehouse in Newark, Wednesday evening to organize for promotion of the Third War Loan Drive.

Chairman Loren Marriott and his supervisors of Centerville met Wednesday evening at the High School in Centerville.

Chairman Carl Christensen of Irvington and Chairman Mrs. Lois Justus of Mission San Jose and their supervisors met at Fire house in Irvington Wednesday night.

Chairman Jack Blacow and his supervisors met Wednesday afternoon at Central Bank in Alvarado.

L. R. Burdick, Executive Chairman for Washington Township, addressed the Newark, Centerville and Decoto groups, stressing the importance of organization even to the smallest detail so that every man, woman and child would be urged in a door to door campaign to purchase War Loan Bonds He stated that the quota for Washington Township represented a $100 Bond for every member of a family in the Township, also, that a payroll savings of 10% was not enough. The fifteen billions necessary to carry the war effort the rest of the year must be subscribed by individuals, lodges, labor organizations, and the farmers must increase their purchases over 90% of what they purchased in the April drive.

The War Finance Committee is positive that Washington Township is united in this drive and will go over the top with flying colors.

SAFEWAY Homemakers' Guide

Julia says- Get youngsters to make lunches and they'll eat 'em

Ideas for nutritious lunches

Good "stick-to-the-ribs" lunches are just about the most important meal of the day—they must carry us through the long afternoon hours right up to dinnertime. And with the youngsters heading back to school, it's more necessary than ever that we keep a well-stocked lunch larder! Now's a good time to lay in supplies of the items listed below.

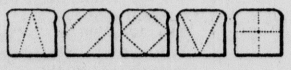
SOMEONE said to me the other day, "Julia, I don't think any mother tries harder than I, to put up good lunches for the youngsters to take to school. But my Mary and Jack certainly don't show any enthusiasm for the sandwiches I make."

Then I told her about the experience I'd had with the same problem. Let the youngsters put up their own lunches!

With a little supervision, any child—from a sixth-grader on up—can do a good job of making up a lunch. And it's amazing, what a difference it makes. The youngster takes pride in the importance of the work. He knows the food will be what *he likes*, not just something "Mom thinks is good for him." Can't you just see him at school, saying to one of his pals at lunchtime, "I made this sandwich!"

It's surprisingly easy. Here's the way we do it, at our house:

1. The evening before a school day, after the dishes are done, my two youngsters and I decide on what will go into tomorrow's lunch.
2. The youngsters get all the necessary lunch "fixings" together.
3. They arrange the bread so that each slice is next to the "partner" it fits.
4. They spread each slice with a stiff silver knife (if butter is scarce one side is spread with dressing or a sandwich spread), covering the bread clear to the edge so it won't be dry eating.
5. They spread the fillings, making them at least one-third as thick as one piece of bread.
6. They cut the sandwiches in any one of a number of ways; for instance:



7. They carefully wrap each sandwich in waxed paper, so it will be fresh and tasty the next day.
8. They pack their lunches in paper bags, being careful to put such heavy items as oranges and apples in the bottom of the bag, and the more fragile sandwiches on top.
9. Then they put their lunches away in the refrigerator or other cool place, and clean up whatever mess they've made.

Incidentally, if you'd like more information on how we do this in our house, take one of the free leaflets waiting for you at Safeway.

OUR 'TOE HOLD" ON EUROPE

Two years and four months ago the brave British, doing their best to aid the valiant Greeks, then resisting the nazi conquest of their ancient nation, were defeated and had to withdraw as best they could.

For two years and four months the damnazis have had things all their own way in Europe proper: plundering, pillaging, raping, killing and brutaizing to their dirty hearts' content.

Last Friday the famous British Eighth Army under General Montgomery jumped the Messina straits and hopped onto the "toe" of the boot of Italy.

Now a "toe hold" in wrestling is a very painful experience for the party who's toe is being pushed around. A very small wrestler can make a very big opponent holler quits when pressure is being applied to his toe.

Figuratively speaking the British, by means of their toe hold on the foot of Italy will soon make the whole Italian body writhe. It is good to know that representatives of freedom and civilization have again set foot on continental Europe—with the main invasion yet to be staged: notably through the Balkans, where King Boris is now a corpse, or through Greece where the doughty British lost their last footing on European soil.

The British have "crossed their Rubicon" and the nazis are "burning their bridges before them."

Perhaps the Russians will complete their "hammer lock" on the nazis, now fleeing the Donets Basin and help the British with their "toe hold." When the United Nations get to Berlin and we throw the nazis for a "fall" then we'll all be happy!—W. W.

"BACKING UP"

The "never surrender" Japs who die fighting for the glory of their "son of————" (you know what), who never retreat and kill themselves rather than become prisoners of war (bushwa!) have developed a new war technique.

It is called "backing up." In ordinary understandable American that means withdrawing, quitting or what-have-you.

They first practiced this new technique on Kiska, where our troops landed unopposed, and saved possibly 5 000 casualties. The process was repeated at Munda airfield, again at Rekata Bay, and our forces, now fighting on another South Sea island, found the new process had been used again there when for the fourth time they landed on an enemy "stronghold" only to find the enemy had vanished, evacuated, vamosed,—call it what you will.

This is the same as the nazi's vaunted "planned withdrawal". But the result is the same: the enemy quits. Thus he "saves face" —by saving the whole body, too. "Save the body and you save all." Our commanders call the new process "backing up". We hope the skibbies continue to practice it until they back clear up to Tokyo —where we can one day bomb them into extinction.

That's the kind of war this is, so far as the slant-eyes are concerned: a War of Extermination. "Sic semper rats!"

"YOU TAKE YOUR CHOICE"

Governor Earl Warren and the State Defense Council last week announced that civilian defense activities in California could be relaxed, with the exception of protective measures around the more populous centers.

Next day the director of civilian defense, one Mr. Levison, and local Army authorities, jumped on that declaration with both feet, declaring that smaller nations which had "counted on probabilities rather than possibilities, were now under the heels of dictators."

The latter course of reasoning, at this late date, is rather specious. The enemies' ability to attack has been definitely reduced; our capacity to resist and turn back has been definitely increased, particularly since last year's spectacular Battle of Midway, which broke up a real invasion attempt of 20 warships and 70 troop and cargo ships. Lastly, we are not a "smaller nation."

So you can take your choice as to continuing tight civilian defense activities, or relaxing them. It is the army's place to be alarmed: that's their regular business. Meantime, Air Observation Posts have to be manned (and womanned) whether we enjoy the task or not. The Japs doubtless will attempt a nuisance raid or a coastal shelling from submarines whenever they can. But such token raids can do but negligable damage, unless they make a lucky hit.

The governor also suggested that dim-out regulations be lifted except in certain designated areas facing the ocean because civilian casualties in such areas have far exceeded possible losses of life in merchant ship sinkings off the coast—of which we have had none for some 15 months.

Your editor made this same suggestion editorially six or eight months ago: the loss of civilian life ashore is fully as important as the loss of marine life at sea—and we have had far too much of the former in dimout areas.

However, the generals and admirals are fighting the war, so we "arm chair" civilians will have to take our orders from them, and obey willingly, as good American citizens.

How long since YOU have stood a trick on a watch tower?

— W. W. —

"HIGH, WIDE & HANDSOME"

The new pay-as-you-go income tax law now in effect, which requires taxpayers to file an "estimate" of their 1943 income by September 15, (and that's only next Wednesday) has a humorous side.

You estimate what your income is going to be. You can overestimate or under-estimate: it does not seem to make much difference because three months from now, meaning December 15, you have to file another and more accurate estimate, within 20 percent of actual income to be exact.

Then on March 15 of next year you file an actual return of monies received in your 1943 gross income.

All of which makes the September 15 return come under the general heading of fiction. Who is going to read and compile your September 15 return—and there are supposed to be 50 million of these—and then compare them with the December 15 return, leaves one guessing. And what the object of a possibly wild September 15 estimate may be is a government secret.

In the light of common sense the September 15 estimate could be entirely omitted—and no one would be either gainer or loser—least of all, the government.

LESS LAWS & MORE SENSE

It is "against the law" for girls under 18 to carry daily newspaper routes, one hears. It is against the law for boys and girls under 14 to work in the fruit without a permit and then for only eight hours a day, one definitely knows.

Yet the daily newspaper routes have to be carried, and the fruit has to be picked and packed regardless of laws. The efforts of well meaning law-makers to smooth over the bumps in civilian life generally serve but to make the bumps bumpier.

Why not let common sense prevail and let we parents be responsible for the safety, health and happiness of our progeny, particularly in war-time? Our children properly want to do their patriotic bit in war-time and the relatively easy money to be earned by youngsters these days is nothing to be sneezed at, particularly where the family income is impaired.

Yet there is "the law" which says, No, you mussnt do this, you mussnt do that. This scribe often wonders if we elect our congressmen and legislators to do our will, —or THEIR will?

Numbers of well-meant laws are forced upon us which we dont need, dont want, and for the most part—inadvertently ignore!

BERGSTROM NAMED AS COORDINATOR OF FARM WORK POOL

Raymond Bergstrom, manager of the County Fair, was appointed by the Alameda County Board of Supervisors as co-ordinator of the Alameda County Farm Production Committee.

The committee, with John Busch Pleasanton, as chairman, will coordinate the labor pool of Mexican nationals, imported here, and other volunteer workers.

George Janssen, chairman of the Board of Supervisors, also announced that $500 has been voted for improvements to the grandstand at the Alameda County Fair grounds in Pleasanton, where girl tomato pickers will be lodged.

Living quarters for the girls will be built on the ground floor of the grandstand as a part of the Southern Alameda County Emergency Harvest program.

Also on the grounds are buildings moved from the former National Guard camp near Sunol, which will house about 100 vounteer Mexican workers who have come to this country to alleviate the crop labor shortage.

The Mexicans, according to Jansen, will arrive here about September 15. The county will spends $3400 for their housing facilities. —Southern Alameda County News.

IRVINGTON SCHOOL "HOPES" TO OPEN ON SEPTEMBER 20

IRVINGTON — Plans for the fall opening of the Irvington Elementary school on Monday, September 20 hinge upon their bus driver being released from his job, to which he is now "frozen" at the Pacific States Steel corporation according to the new Principal, Mr. Robertson, formerly vice-principal, of the Franklin school in Santa Clara County.

CENTERVILLE MAN DEPRIVED OF GAS

Refusal to give the name of the gas service station operator who sold him gas in exchange for ration stamps No. 8, and violation of the law by pre-dated use of the stamps, left Rosendo Herrera of Fremont avenue. Centerville, without a gas book for 30 days.

Herrera asked for re-issue of a ration book after selling an old car and buying another. When board members found he had used all his No. 7 stamps and four of the No. 8's not valid until September 22, his book was held up for a month. The board pointed out that the operator selling the gas in return for illegal stamps was also breaking the law and subject to heavy penalty if caught.
